Replacing Check Point 12600 & TE1000 Appliances Hard Disk Drives

**Important** - Make certain that you are electromagnetically grounded when performing the following procedures. Static electricity can damage the appliance.
Removing a Hard Disk Drive

To remove a hard disk drive:
1. Using the key supplied in the toolkit, unlock the drive.
2. Slide the release latch toward the left. The extraction handle pops out.
3. Using the extraction handle, remove the drive from the slot.

Installing a Hard Disk Drive

To install a hard disk drive:
1. Slide the replacement hard disk drive into the slot.
2. Push the extraction handle until it closes and the drive clicks into place.
3. Using the key supplied in the toolkit, lock the new drive.
