Check Point 12000 Appliances Image Management

Congratulations on your purchase of a Check Point appliance. This appliance is preinstalled with the following software images:

- R71.30
- R75.10

Turning the Appliance On

When the appliance is turned on for the first time, it loads with the R71.30 default image.

Selecting a Software Image

To select a software image for the appliance:
1. Reboot or power on the appliance.
2. When the countdown begins, press any of the arrow keys.
   The Boot menu appears.
3. Using the arrow buttons, select a software image from the list and press ENTER.
4. Press the up arrow to confirm the reset.
5. Wait for the appliance to restore the factory image. This process takes up to 10 minutes, depending on the appliance model.
   As the appliance is loads the software image, a Loading message displays continuously.
   After the process has finished, the appliance boots with the selected software image.
