CHECK POINT

SMART-1™ 405/410 APPLIANCE

Quick Start Guide
WARNING! Before you begin with the appliance installation, read all the safety instructions. Search for Smart-1 405/410 Appliance Getting Started Guide. http://downloads.checkpoint.com/dc/download.htm?ID=55885

Latest Software: We recommend that you install the most recent software release to stay up-to-date with the latest functional improvements, stability fixes, security enhancements, and protection against new and evolving attacks.

Thank you for choosing the Check Point Smart-1 405/410 Security Management Appliance, part of the Check Point Infinity consolidated architecture. You are now minutes away from setting up the most advanced security platform designed to prevent the most sophisticated threats today and in the future.

Should you have any questions about your purchase, please don’t hesitate to contact Check Point support services.

POWER UP YOUR CHECK POINT APPLIANCE

- Connect the power cable to the power port on the Smart-1 appliance rear panel and plug it into a power outlet.
- Turn the power on.
Initial setup must be done from a PC connected to the appliance’s management interface via the included Ethernet cable. Management interface is marked as MGMT on the appliance front panel.

Windows 7, 8, and 10 configuration:
- Right-click on the network adapter you want to assign an IP address and click Properties. Select Internet Protocol Version 4 (TCP/IPv4) and click the Properties button.
- In the IP address field, enter 192.168.1.2.
- In the Subnet mask field, enter 255.255.255.0.
- Leave the Default gateway and DNS settings fields empty.
- Click OK and close the dialog boxes.
- After completing the initial connection, the First Time Configuration Wizard will guide you through the process of configuring the appliance.
CONFIGURE YOUR APPLIANCE

- Launch the Web browser and enter https://192.168.1.1 in the address bar.
  
  **Note** – You might receive a certificate error page due to a known, unresolved browser conflict. Click Continue to this Web site.

- Log in with the default system administrator login name/password, admin/admin, and click Login.
