POWER UP YOUR CHECK POINT
TE100X/TE250X/TE1000X/TE2000X APPLIANCE

1. Connect the power cable to the power port on the TE100X/TE250X/TE1000X/TE2000X appliance rear panel and plug it into a power outlet.
2. Turn the power on.

CONNECT YOUR PC FOR INITIAL SETUP

1. Initial setup must be done from a PC connected to the appliance’s MGMT interface via the included Ethernet cable. After completing the initial connection, the First Time Configuration Wizard will guide you through the process of configuring the appliance.
2. Before continuing, make sure your PC is configured correctly.
FOR WINDOWS 7 AND WINDOWS VISTA OPERATING SYSTEMS

- Click ➤ Control Panel > Network and Internet > Network and Sharing Center > Manage network connections.
- Right-click Local Area Connection, and then click Properties. If you are prompted for an administrator password or confirmation, type the password or provide confirmation.
- Click the Networking tab. Under This connection uses the following items, click Internet Protocol Version 4 (TCP/IPv4), and then click Properties.
- In the IP address field, enter 192.168.1.2.
- In the Subnet mask field, enter 255.255.255.0.
- Leave the Default gateway and DNS settings fields empty.
- Click OK and close the dialog boxes.

FOR WINDOWS XP OPERATING SYSTEMS

- Click ➤ start ➤ Settings > Control Panel > Network Connections.
- Double-click Local Area Connection.
- In the General tab, click Properties.
- In the IP address field, enter 192.168.1.2.
- In the Subnet mask field, enter 255.255.255.0.
- Leave the Default gateway and DNS settings fields empty.
- Click OK and close the dialog boxes.
Configure your TE100X/TE250X/TE1000X/TE2000X Appliance

- Launch the Web browser and type https://192.168.1.1 in the address bar.

**Note** – A certificate error will be shown upon login. This is due to the fact that default certificate is self-signed. Select the option that allows you to continue to the website.

**Click Continue to this Web site.**

- Log in with the default system administrator login name/password, admin/admin, and click Login.

**Note** – Popups must always be allowed on https://<appliance_ip_address>.

- After logging in for the first time and changing the default login name and password, the First Time Configuration Wizard will begin automatically.

- The wizard will guide you through the connection setup process. Fill in the parameters as required and click Finish.

For additional information regarding setting up your appliance, refer to the Check Point TE100X/TE250X or TE1000X/TE2000X Appliances Getting Started Guide.
