CHECK POINT

SANDBLAST
THREAT EMULATION
Appliance

Quick Start Guide
WARNING! Before you install the appliance, read the Safety information in your appliance Getting Started Guide.

Latest Software: We recommend that you install the most recent software release to stay up-to-date with the latest functional improvements, stability fixes, security enhancements, and protection against new and evolving attacks.

Thank you for choosing the Check Point Threat Emulation Appliance, part of the Check Point Infinity consolidated architecture. You are now minutes away from setting up the most advanced security platform designed to prevent the most sophisticated threats today and in the future.

Should you have any questions about your purchase, please don’t hesitate to contact Check Point support services.

POWER UP YOUR CHECK POINT APPLIANCE

• Connect the power cables to the power ports on the appliance rear panel and plug them into power outlets. The machine is powered on automatically after connecting the power cords.
CONNECT YOUR PC FOR INITIAL SETUP

- Initial setup must be done from a PC connected to the appliance’s management interface via the included Ethernet cable. Management interface is marked as MGMT on the appliance rear panel.

Windows 8 & 10 configuration:

1. Right-click on the network adapter you want to assign an IP address and click Properties. Select Internet Protocol Version 4 (TCP/IPv4) and click the Properties button.
2. In the IP address field, enter 192.168.1.2.
3. In the Subnet mask field, enter 255.255.255.0.
4. Leave the Default gateway and DNS settings fields empty.
5. Click OK and close the dialog boxes.

After completing the initial connection, the First Time Configuration Wizard will guide you through the process of configuring the appliance.
1. Launch the Web browser and enter https://192.168.1.1 in the address bar.
   Note – You might receive a certificate error page due to a known, unresolved
   browser conflict. Click Continue to this Web site.

2. Log in with the default system administrator login name/password,
   admin/admin, and click Login.

   Note – Popups must always be allowed on https://<appliance_ip_address>.

   • The First Time Configuration Wizard will begin automatically.
   • The wizard will guide you through the connection setup process.
     Fill in the parameters as required.
